## *OVRC Newsletter*

*Cumulative Index 2006 – spring, 2012*

**Notes pertaining to this index:**

Volumes range from 14 (2006) to 20 (2012); that is, 6 years.

Numbers refer to Spring (1), Summer (2), Fall (3) and Winter (4).

*Due to an error in numbering, the Winter 2011 issue was denoted as Volume 16. This should have read Volume 19. I regret this error and hope there is no inconvenience.*

For ease of sorting into multiple groups and to save time, this index was compiled in EXCEL. Therefore its appearance is quite different from that of past issues. Your editor hopes that you can accept this difference, and that the utility of the index is not compromised.

The index is divided into four groups:

- Alphabetically by article name
- Alphabetically by author name
- Alphabetically by subject name
- Numerically by volume number.
